RELEVANT EXPERIENCE

Brady Corporation   (Chicago, IL)   Feb 2016 - Present
Salesforce / CloudCraze Developer - eCommerce
• Integrate digital commerce channels using Salesforce B2B Commerce Cloud (previously CloudCraze).
• Utilizing Visualforce, Apex, Javascript and HTML to customize the Salesforce user interface to incorporate additional features for internal organizations.
• Actively code in VF pages, Apex classes, triggers, and processes on multiple storefront communities.
• Design and integrate software architecture of guided selling eCommerce to boost engagement on hero products; work with business through biweekly sprints to ship new customer engaging features.

Walker Sands Digital (Chicago, IL)   Sept 2015 - Dec 2015
Junior Front-End Developer
• Architected and designed (Wordpress, SASS) an internal CMS testing playground; deployed and used for training and new hires.
• Collaborated with lead developer and in-house backend developer to update and modernize the Walker Sands CMS; worked directly with the design team to create fully responsive websites for clients.
